ALL LEGISLATIVE BODIES ARE A MENACE,

Only Reason Railroads Enter Dirty Work Is to Escape Confiscation, Smith Avers.

WASHINGTON, May 5,-All legislative bodies are a messace," observed President Million H. Smith of the Louisville & Nashville Railroad, today in the Interstate Commerce Commission hearing into the road's practices. "Plutocrats," he continued. 'are a necessity.

"From Congress down, we must do what we can to conciliate and placate legislative bodies. It is the curse of our form of government; too man;

"Hetty Green, if she were talking to you, would say she had struggled all her life to prevent people getting her property."

"A man with ambition to be United States Senator or Governor, or President, starts something against property. It is a struggle always between you and legislative bodies. The only reason the railroads ever enter dirty work is to keep themselves from confiscation."

Smith said the Louisville & Nash ville had helped finance State and City governments in the South. One lean of \$249,000 in 1912—made "inlean of \$249,000 in 1912—made "in-directly" through the First National-Bank of Birmingham, was solicited; he said, by W. P. G. Harding, then bank president and now member of the Federal Reserve Board. This was-to buy up Alabama State warrants, for which the State, he said, had no funds.

Thiering Lawyer Disharred. Arthur A. Livers, a lawyer recently

convicted of stealing \$1,000 from a firm by which he was employed, was to-day disharred by the Appellate Division of the Supreme Court. The Justices found that "his long years of peculations dem-enstrate his utter failure to realize the obligations of a profession whose cor-neratones are honesty and faithfulness to trust imposed."

Women acquainted with Fownes quality in ALL kinds of gloves, are demanding Fownes silk gloves,-with reason.

Smartest, most satisfactory, but they cost no more.

All lengths, sizes and shades.

Double-tipped? Of course!

a great many occasions. If it is made of organdie or of Communien cloth, of plain white net or of fine butiste, it will be available for Confirmation and for First Communion. If it is made of embroidered flouncing, as it general summer wear and it can be used for commencement day, or, for com-mencement, it would be pretty to make it of organdy, and to trim with a little lace edging or lace insertion. If alls is liked, it could be made of Habutai or of crape de chine, for these silks are childlike in effect and are much worn. If a dressy frock wore wanted for the afternoon dance or some cuch occasion, it could be made of net with the seams limished with cords of white taffets for the trimming. It is an available pattern, while at the same time it is a very simple pattern and the dress is an easy one to make. This season there is an exceptional number of pretty down-inse and bordered materials offered and they are very charming for this design. The organdles are exquisitely dainty and beautiful and they would make a most attractive estimate dress. There are two-dered nets that are simple and child-like in effect, and any plain material can be trimmed on it, edges to give the border suggestion. A very useful freek and a smart freek could be made of taffets in a pretty and becoming shade of blue with bands of velvet libbon used as a finish in place of the ruches iffurerame prefer the long showers are both patty and comportable for warm weather wear, but some mothers may prefer the long showers and high med, with I ward of plain material is to make as shown in the back view. The pattern, No. 9681, is cut in place from a lat years.

No. 2051—(With Basting Chie and Added Seam Allowance.) Girl's Dress, 8 to 14 years. of organdy, and to trim with a little lace edging or lace insertion. If allk is
